PURE COUNTRY STYLE

COCONUT OIL

Imported from Africa, India and Jamaica, where it's used as a basic staple for thousands of years for cooking, flavoring and as a household remedy for burns, cuts, skin rashes, scalp and hair problems.

In Jamaica coconut oil is given to children and babies to loosen mucus on the chest and help relieve coughing.

Pure coconut oil is easy to digest and is used by folks in the tropics who can't digest fat.

Sundial pure 100% Natural Country Style Coconut Oil is made the traditional way, nothing added or taken away.

Sundial HONEY

S33
S34

PURE • RAW • UNHEATED • UNSTRAINED

Try our pure raw, unstrained, unheated honey. This honey contains bee wax, bee pollen and royal jelly in their natural balanced proportions. These substances make honey a natural tonic to the nerves. Pure honey is also an emulsifier, it breaks up fat and mucus, and is a natural mineral and vitamin source. Sundial Honey is bottled by hand to help preserve its natural vitamin and mineral balance, nothing added or taken away.

Pure, raw honey has been used for centuries not just as a sweetener, but also as a nutritious food, and medicine.

P.S.: Try our wild black African Honey from Ghana, West Africa.

Sundial

WILD TROPICAL HERBS

SUNDIAL invites you to use our line of wild, traditional herbs of the tropics. Our herbs are not minced, powdered or processed in any way.

SUNDIAL ORGANIC HERBS are not cultivated or exposed to chemicals, pesticides, or fertilizers. Our herbs are harvested according to their seasons from the uncontaminated mountains, woodlands and meadows of Jamaica and the tropics, dried and packaged to preserve their natural oils, aroma, as well as their special medicinal and nutritional properties.

So when shopping for herbs — ask for the name you can trust — **Sundial Wild Organic Tropical Herbs** of Latin America, the Caribbean and Africa.

“The Lord has created medicines out of the Earth, and he that is wise will not reject them”

Sundial - CASSAVA MEAL

A NUTRITIOUS FIBER AND FOOD

S51-MEAL 1 LB. # S52-FLOUR 1 LB.

Cassava Meal is made from the cassava, otherwise known as yucca. Yucca is a basic food in the Caribbean, South America, and Africa.

Cassava Meal is used in the same way as cornmeal. It's the world's best fiber. It's nutritious and it acts as a mop that cleans stomach, intestines, and colonic area, and as a broom to sweep out those areas. It absorbs fats, acids and other poisons before they enter the bloodstream and sweeps them out, thereby controlling blood cholesterol levels, prevents heart disease and constipation and retards the growth of cancer in the stomach and intestines. In Africa where cassava meal is used daily, heart disease, stomach and intestinal cancers are rare to nonexistent.

Cassava Meal not only cleans and mops out the stomach, intestines and colonic area, it also nourishes and heals.

SUNDIAL®

Traditional Herbal Products

Original Organic Maroon Recipes
100% Natural

Our motto is Natural and Traditional Remedies
Coming to you from the laboratory of
the most high for what might be ailing you.

COMPANY BACKGROUND

Sundial Herbs and Herbal Products, International has been in existence since the early 1970's. However, the recipes from our products goes back at least 100 years. It has been handed down from our great-great grandfather, who was the family healer and descendent of the Koromantee Tribe (Maroons) in Jamaica, West Indies. In countries and areas outside the United States most people try to hold onto the tradition of using herbs, roots, barks and natural elements from nature to assist with the well-being and maintenance of the body. This tradition is then handed down to the one designated as the "family healer". So it was...that the family healer was designated to be the Bush Doctor - Baba Rahsan Abdul Hakim. From the age of eight, he was designated to carry on the family tradition of making Wood and Root Tonic, Koromantee Bitters and other family recipes using natural herbs, roots, barks, spices and seeds.

Product ingredients and shelf-life: The products contain no chemicals, artificial colors or additives. They are composed of pure herbs, roots and barks from Africa and the Caribbean Islands. We use different herbal spices to preserve the contents and extend the life of the product. The products are made fresh daily... with about one to two days (at the most) sitting in our plant before they are sent to any location. The shelf-life of the liquid products is approximately 7 years, aging with time, never losing their potency or quality. Similar to all aged tonics and beverages, the aged taste could vary. These products do not ferment and turn into alcohol.
